DECLARATION OF RAY COMBS

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

I, Ray Combs, state and declare that:

1. I am a co-inventor of claims 1-25 and 27-53 of the above referenced patent application.
2. Prior to December 5, 2001, I and the other co-inventor conceived in the United States the subject matter of claims 1-25 and 27-53 of the above-referenced application, as evidenced by the attached Exhibit A.
3. Exhibit A is a copy of a draft of the above-referenced application and accompanying email that was sent to me prior to December 5, 2001, by Alistair K. Chan, a patent attorney formerly employed by Foley & Lardner LLP.
4. Based on my best recollection, between prior to December 5, 2001 and January 8, 2002, with reasonable diligence I reviewed the draft of the Application in addition to performing other duties associated with my former employment with Palm, Inc. I did not work on the draft application during the time period from December 20, 2001 through

January 2, 2002, due to being on vacation during a time in which Palm Inc. was closed from December 25, 2001 through January 1, 2002.

5. On January 8, 2002, I provided my comments to Alistair Chan regarding the draft of the above-referenced application, as indicated by Exhibit B.

6. Exhibit C is a copy of the final draft of the present application and accompanying email that was sent to me on January 9, 2002.

7. Exhibit D is a copy of the Declaration and Power of Attorney for the present application that I signed on January 9, 2002.

8. Applicants are relying on our January 18, 2002 filing date as a constructive reduction to practice.

9. I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are true, and further that these statements are made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the patent application or any patent issuing therefrom.

Respectfully submitted,

Date 2/4/2008

By Ray Combs
